

This option is available in Daminion Server 7.2 or higher. Daminion Connector is not supported in Photoshop, Illustrator, Premiere, and InDesign versions released before 2021!

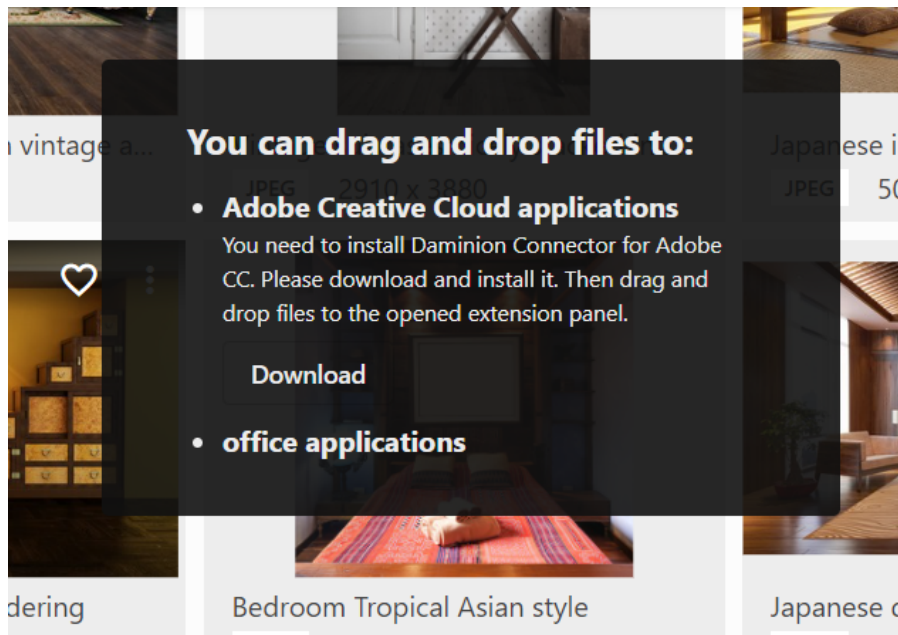

Daminion Connector helps to integrate Daminion with Adobe InDesign, Illustrator, Premiere, and Photoshop without the need to download/upload files from/to Daminion. It allows you to work with the same InDesign document on multiple computers, avoid broken links and decrease the size of the InDesign documents by using medium-res versions of the images.

Note: Adobe InDesign, Illustrator, Premier, and Photoshop should be installed on your computer.

Installation of Daminion Connector for Adobe CC

To download Daminion Connector for Adobe CC, open your Daminion web client catalog and select a file. Start dragging this file over the thumbnail area while holding down the right mouse button.

The following notification window will be displayed:

Move your cursor to the window that appears and click the Download button.

In the window that opens you can read the description of Daminion Connector's core functionalities and download the Daminion Connector installer for your OS.

Daminion Connector for Adobe CC

This extension allows you to:

1. Drag the images from the Daminion web client to Adobe Creative Cloud applications.
2. Sync image versions in Daminion and the InDesign documents
3. Optimize image sizes in the InDesign documents.
4. Avoid broken image links in the InDesign documents.

[Download Daminion Connector for macOS](#)

Close

Once downloaded, run the installer and select the installation folder. The default installation folder is shown on the screenshot below:

The installation will take about a minute.

Once the installation is complete, the Daminion Connector plugin will be available in InDesign, Illustrator, Premier, and Photoshop.

Installation on macOS

By default, macOS prevents the installation of applications downloaded from sources other than the Apple Store. If you need to install such applications, please refer to [this article](#) for instructions.
